★ 5C's of Leasing IT

In a period of greater uncertainty, and with IT continuously changing, there is a serious risk that businesses could be left behind as the landscape changes and digitises before us.

The economics of today, is putting even great pressure on organisations to spend wisely and manage their cash. We are able to support you, our clients threw a smart range of leasing options.

Our leasing approach allows you to cover all aspects of a technology deployment, covering services and hardware procurement alike.

Continue IT

In the long term renewing your tech becomes much easier and you can invest into better solutions net time with a bigger budget. Stay ahead of the technological curve next time.

Consult IT

Alongside consulting on the right solution for you, we can now support in making sure financially the solution is also viable. We pride ourselves on being transparent and making sure you get the right solution from start to finish. Whether it is budget boundaries or the worry of technology obsolescence, we aim to support you in the right decision.

Confirm IT

From hardware to software, and anything in between can be covered in a bespoke agreement. Once the ideal solution is reached, and you decide whether leasing is the option for you we can engage the relevant teams to support the budget.

Control IT

You can now utilise the perfect solution for your business. Whether its increased sales, better circulation of marketing or a solution to improve the user experience. Your safe in the knowledge that this solution will deliver what was expected.

Claim IT

Installing the solution is where Celestra's years of experience and our company 5C philosophy comes into play. With our competent project management teams, bespoke processes, and our fleet of expertly trained engineers across the country. We deliver on time, on budget, and to the highest standard.

★ Benefits of financing

 In a period of uncertainty, get the technology and equipment you need to continue to operate business as usual.	 Stay ahead of the curve and win against the technology obsolescence game. Use financial solutions to displace legacy solutions.	 Unlock next year's budget and support your goals rather than be restricted financially.	 Finance the whole and right solution all at once. Reduce all sperate entities into one single process and amount.	 Do not be restricted by financing equipment and services from one company. With no purchasing obligations, get the kit you need, no matter where its from.	 Engage with partners that you know can deliver time and time again.
